

SIGMA

Primer

Description:

SIGMA primer is a high-quality matt paint with perfect hiding power and high coverage ability use as anticorrosion paint.

Recommended Use:

SIGMA primer is used for obtaining high anticorrosion resistance. It can be used for metal surfaces.

Specification Data:

Thinner	White spirit or turpentine
Viscosity	9000 c/ P at 25° C
Drying Time (for touch)	60 min. at 25° C
Drying Time (hard dry)	16 hours at 25° C
Coverage	10 – 12 m ² /L – depending on thickness of the layer
Finish	Matt
Mode of Application	Roller - brush
Storage	2 years from production date

Surface Preparation:

The surfaces should be dry, clean and free from contaminates such as grease, oil, dust, which can result in poor adhesion of the paint to the surface. Use a suitable solvent for cleaning old flaking paint or poorly bound surfaces must be removed completely.
